## AAC Paramount VB Soft White Spring Wheat

Progress Through Research  
Le progrès grâce à la recherche

### Description:

AAC Paramount VB is a high yielding soft white spring wheat with an excellent agronomic package, large kernel size and improved falling number. AAC Paramount VB also has the SM1 gene for tolerance to the orange wheat blossom midge and AC Andrew will be the refuge in the varietal blend. AAC Paramount VB has maturity similar to AC Andrew, manage maturity by seeding early and increasing seeding rate to hasten maturity.

**Parentage:** Sadash X SWS366

### Strengths:

- 6% higher yield than AC Andrew and 3% higher yield than AC<sup>®</sup> Sadash in Cooperative Registration trials
- Excellent lodging resistance similar to AC Andrew
- Larger kernel size than both AC Andrew and AC<sup>®</sup> Sadash
- Good resistance to stripe rust, loose smut and powdery mildew
- Improved falling number

### Neutral Traits:

- Intermediate resistance to leaf rust, stem rust, black point and leaf spot
- 4cm taller than AC Andrew
- Maturity equal AC Andrew

### Weaknesses:

- Susceptible to common bunt and FHB

### Breeder:

Dr. Harpinder Randhawa  
Agriculture and Agri-Food Canada  
Lethbridge Research Centre, Lethbridge AB

### PBR 91 Applied For

### 2012-2014 Western Soft White Spring Wheat Cooperative Registration Trials
